

Storage units

Braccio di Ferro

Outdoor container, designed to be strong, weatherproof and also versatile and pleasing to the eye so that it can stylishly be fitted on terraces, verandas and balconies used for living outdoors during the summer.

OUTDOOR METAL CABINET

Braccio di Ferro is the perfect container for outdoors because it has a metal structure, which is zinc-plated and epoxy powder-coated so that it becomes particularly resistant to atmospheric agents.

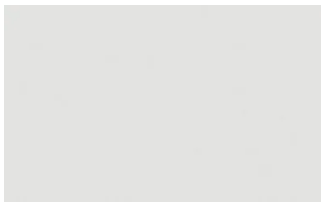

FINISHES

Birex designers not only selected the most suitable outdoor materials, but also chose attractive finishes for spaces. Which ones do you prefer?
