

## Laccati lucidi - Glossy lacquers

### Laccati lucidi - Glossy lacquers

**Descrizione**

Description

I laccati lucidi sono perfetti per rendere luminoso e visivamente più ampio un ambiente perché riflettono la luce. Per questa ragione sono ideali in ambienti piccoli. Grazie alla grande quantità di finiture disponibili, rendono anche facile personalizzare l'arredamento di ogni stanza, seguendo i propri gusti.

Glossy lacquers are perfect for making a room bright and visually larger because they reflect light. For this reason, they are ideal in small rooms. Thanks to the large number of finishes available, they also make it easy to customize the decor of any room, following one's own tastes.

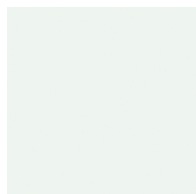

Il ciclo di verniciatura per i laccati lucidi è a base solvente con una lavorazione di spazzolatura superficiale.

Esistono dei margini di tolleranza dovuti a variazioni di tinta per le finiture laccate. In caso di un completamento successivo dell'ordine, non si garantisce la perfetta eguaglianza di colori con la composizione originaria.

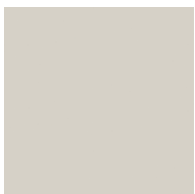

The painting cycle for glossy lacquered finishes is solvent-based with surface brushing. There are tolerance margins due to colour variations for lacquered finishes. In the event of a later completion of the order, a perfect colour match with the original composition cannot be guaranteed.
