Descrizione

Description

Tessuto tramato a contrasto colore, che non passa inosservato.

Dal peso consistente, è preparato con gugliate di molti fili, scelti per ordito e trama in colori ben diversi.

Un'apposita lavorazione lo porta ad acquisire un risultato notevole per la sua categoria al test di resistenza (ben 90.000 cicli Martindale).

È ignifugo secondo la normativa statunitense CAL TB117.

Contrasting color textured fabric that does not go unnoticed.

Substantial in weight, it is prepared with gugliate of many threads, chosen for warp and weft in quite different colors. Special processing leads it to acquire a remarkable result for its category at the endurance test (as many as 90,000 Martindale cycles).

It is flame retardant according to the US CAL TB117 standard.
