## Materici - Textured finishes

### Materici Birex - Birex textured finishes

**Descrizione**

Description

Si tratta di pannelli composti da fibre legnose, finiti con un foglio di un materiale a base cartacea, reso resistente e compatto. La sua lavorazione superficiale simula in modo estremamente realistico i materiali più diversi, dal legno alla pietra, alla pelle, oppure può essere semplicemente colorato.

These are panels composed of wood fibers, finished with a sheet of a paper-based material, made strong and compact. Its surface processing extremely realistically simulates a variety of materials, from wood to stone to leather, or it can simply be colored.

Birex crede nel rispetto dell'ambiente e da anni ha scelto di affidarsi solo a partner certificati EPA-TSCA-CARB P2 per la fornitura dei pannelli in legno, in grado di garantire basse emissioni di formaldeide. Opta inoltre per pannelli FSC<sup>®</sup>, a tutela di una gestione corretta e responsabile delle foreste.

La finitura materica disponibile in vari decori è un materiale dalla superficie compatta molto resistente. La pulizia va effettuata con una spugna bagnata con un normale detergente liquido, sono da evitare i prodotti molto abrasivi, le pagliette in acciaio che potrebbero rigare la superficie e forti prodotti chimici e sanitari. Raccomandiamo di asciugare con un panno le superfici.

Birex believes in respecting the environment and for years has chosen to rely only on EPA-TSCA-CARB P2 certified partners for the supply of wooden panels, and guarantee low formaldehyde emissions. It also opts for FSC<sup>®</sup> panels, to protect correct and responsible forest management.

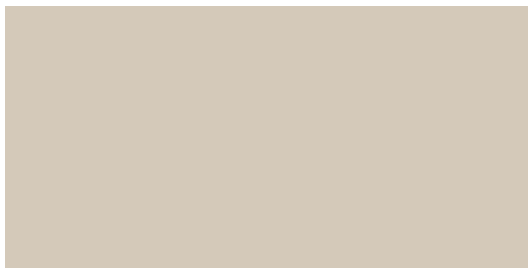

The textured finish, available in various decors is a material with a very resistant compact surface. Cleaning must be carried out with a wet sponge with a normal liquid detergent; very abrasive products, steel wool pads that could scratch the surface and strong chemical and sanitary products are to be avoided. We recommend drying the surface with a cloth.
